

COVID-19 Risk assessment – March 2021

The Government has asked schools to adhere to the following:

It is the Government's plan that all pupils, in all year groups, will return to school full-time from the 8th March 2021.

The link to reviewed guidance is as follows:

<https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak?priority-taxon=b350e61d-1db9-4cc2-bb44-fab02882ac25>

The overall government guidance says the following:

Schools must comply with health and safety law, which requires them to assess risks and put in place proportionate control measures. Schools should thoroughly review their health and safety risk assessments and draw up plans for the autumn term that address the risks identified using the system of controls set out below. These are an adapted form of the system of protective measures that will be familiar from the summer term. Essential measures include:

- a requirement that people who are ill stay at home
- robust hand and respiratory hygiene
- enhanced cleaning arrangements
- active engagement with NHS Test and Trace
- formal consideration of how to reduce contacts and maximise distancing between those in school wherever possible and minimise the potential for contamination so far as is reasonably practicable

How contacts are reduced will depend on the school's circumstances and will (as much as possible) include:

- grouping children together
- avoiding contact between groups
- arranging classrooms with forward-facing desks
- staff maintaining distance from pupils and other staff as much as possible

Employers must protect people from harm. This includes taking reasonable steps to protect staff, pupils and others from coronavirus (COVID-19) within the education setting.

School employers should have active arrangements in place to monitor that the controls are:

- effective
- working as planned
- updated appropriately considering any issues identified and changes in public health advice.

Additional PPE for coronavirus (COVID-19) is only required in a very limited number of scenarios, for example, when:

- a pupil becomes ill with coronavirus (COVID-19) symptoms, and only then if a 2 metre distance cannot be maintained
- performing aerosol generating procedures (AGPs) – guidance is provided at <https://www.gov.uk/government/publications/safe-working-in-education-childcare-and-childrens-social-care/safe-working-in-education-childcare-and-childrens-social-care-settings-including-the-use-of-personal-protective-equipment-ppe#aerosol-generating-procedures-agps>

A facemask should be worn by the supervising adult if a distance of 2 metres cannot be maintained. If contact with the child or young person is necessary, then gloves, an apron and a facemask should be worn by the supervising adult. If a risk assessment determines that there is a risk of splashing to the eyes, for example, from coughing, spitting, or vomiting, then eye protection should also be worn.

- PPE must be worn by staff caring for the child while they await collection if a distance of 2 metres cannot be maintained (such as a very young child or a child with complex needs). More information on PPE use can be found here <https://www.gov.uk/government/publications/safe-working-in-education-childcare-and-childrens-social-care/safe-working-in-education-childcare-and-childrens-social-care-settings-including-the-use-of-personal-protective-equipment-ppe>

The system of controls:

Protective measures

This is the set of actions schools must take. They are grouped into 'prevention' and 'response to any infection' and are outlined in more detail in the sections below.

Prevention:

- 1) Minimise contact with individuals who are unwell by ensuring that those who have coronavirus (COVID-19) symptoms, or who have someone in their household who does, do not attend school.
- 2) Ensure face coverings are used in recommended circumstances.
- 3) Clean hands thoroughly more often than usual.
- 4) Ensure good respiratory hygiene by promoting the 'catch it, bin it, kill it' approach.
- 5) Introduce enhanced cleaning, including cleaning frequently touched surfaces often, using standard products such as detergents and bleach.
- 6) Minimise contact between individuals and maintain social distancing wherever possible.
- 7) Keep occupied spaces well ventilated. **In specific circumstances:**
- 8) Where necessary, wear appropriate personal protective equipment (PPE).

- 9) Promote and engage in asymptomatic testing, where available.
 Numbers 1 to 5 MUST be in place in all schools, all the time.
 Number 6 MUST be properly considered and schools must put in place measures that suit their particular circumstances.
 Number 8 applies in specific circumstances identified on the risk assessment.

Response to any infection you must always:

- 10) Promote and engage with the NHS Test and Trace process.
 11) Manage confirmed cases of coronavirus (COVID-19) amongst the school community.
 12) Contain any outbreak by following local health protection team advice.
 Number 10 to 12 MUST be followed in every case where they are relevant.

Social distancing in early years and primary schools:

We know that, unlike older children and adults, early years and primary age children cannot be expected to remain 2 metres apart from each other and staff. In deciding to bring more children back to early years and schools, we are taking this into account. Schools should therefore work through the hierarchy of measures set out above:

- Avoiding contact with anyone with symptoms
- Frequent hand cleaning and good respiratory hygiene practices
- Regular cleaning of settings
- Minimising contact and mixing

The overarching principle to apply is **reducing the number of contacts between children and staff**. This can be achieved through **keeping groups separate (in 'bubbles')** and through **maintaining a distance between individuals**. These are not alternative options and both measures will help, but the balance between them will change depending on:

- Children's ability to distance
- The layout of the school
- The feasibility of keeping distinct groups separate while offering a broad curriculum (especially at secondary).

It is likely that for younger children the emphasis will be on separating groups, and for older children it will be on distancing. For children old enough, they should also be supported to maintain distance and not touch staff where possible.

It remains important to reduce contact between people as much as possible, and we can achieve that and reduce transmission risk by ensuring children, young people and staff where possible, **only mix in a small, consistent group** and that small **group stays away from other people** and groups.

Consistent groups reduce the risk of transmission by limiting the number of pupils and staff in contact with each other to only those within the group. Maintaining distinct groups or 'bubbles' that do not mix makes it quicker and easier in the event of a positive case to identify those who may need to self-isolate, and keep that number as small as possible. Siblings may be in different groups.

All teachers and other staff can operate across different classes and year groups in order to facilitate the delivery of the school timetable. Where staff need to move between classes and year groups, they should try and keep their distance from pupils and other staff as much as they can, ideally 2 meters from other adults. Where this is not possible with younger children, teachers in primary schools can still work across groups if it is required to enable full educational provisions. Supply Teachers, peripatetic teachers and temporary staff may move between schools if required.

Primary schools:

It is recommended that groups should be kept as small as possible. If this can be smaller than a year group, it should be. So a normal class size may be appropriate. Schools should demonstrate that they are keeping pupils in as small and consistent groups as possible. Large gatherings such as assemblies or collective worship should be avoided.

Social distancing in primary schools is difficult. Adults should remain 2 metres apart where possible, close face to face contact should be avoided and contact within 1 metre of anyone must be limited. For children that are old enough, they should be supported to maintain distance and not touch staff or their peers where possible. It is recognised that this will not always be possible with the youngest pupils.

Changes to classrooms so that pupils sit side by side and facing forwards, rather than face to face or side on and perhaps moving unnecessary furniture may be required.

Government guidance advises the following:

Schools should assess their circumstances and if class-sized groups are not compatible with offering a full range of subjects or managing the practical logistics within and around the school, they can look to implement year group sized 'bubbles'. Whatever the size of the groups, they should be kept apart from other groups where possible and older children should be encouraged to keep their distance within groups.

Schools with the capability to do it should take steps to limit interaction, sharing of rooms and social spaces between groups as much as possible. When using larger groups, the other measures from the system of controls become even more important, to minimise transmission risks and to minimise the numbers of pupils and staff who may need to self-isolate.

Both approaches of separating groups and maintaining distance are not 'all-or-nothing' options, and will still bring benefits even if implemented partially.

Measures not in the classroom:

Groups should be kept apart and movement around the school site kept to a minimum. Schools should avoid busy corridors, entrances and exits. Breaks and lunchtimes should be staggered. Large gatherings such as assemblies and collective worship should be avoided. The use of staffrooms should be minimised. Staff spaces that are shared must be planned to enable social distancing and suitable sanitising.

Measures for arriving at and leaving school:

Where travel to school patterns allow staggered start and finish times in your school, you should consider this to keep groups apart. Schools must communicate this effectively to parents and pupils to prevent congestion or large gatherings at the start and finish of each day.

Schools should implement a process for removing face coverings when pupils who use them arrive at school. Pupils should be taught how to do this correctly (not touching the front of their face), washing hands immediately on arrival, disposing of temporary coverings appropriately and placing reusable ones in plastic bags to take home.

Equipment in schools:

For individual and very frequently used equipment such as pencils and pens, it is recommended that staff and pupils have their own items they are NOT shared.

Classroom based resources can be shared within a bubble. These must be cleaned regularly as should surfaces. Resources shared between bubbles, such as sports, art and science equipment should be cleaned frequently and meticulously between use or rotated to allow them to be left unused and out of reach for a period of 48 hours (72 hours for plastics).

Pupils and teachers can take books and other shared resources home, although unnecessary sharing should be avoided, and the school should ensure such resources are cleaned when they are returned to school.

Outdoor equipment should be more frequently cleaned. This also applies to resources inside and outside by wraparound care providers. It is recommended that pupils limit the amount of equipment they bring to school to only essentials. Shared resources can be taken home but avoided where unnecessary. All such resources will need to be cleaned before used by others.

Engage with the NHS Test and Trace process:

Schools must ensure they understand the NHS Test and Trace process and how to contact their local Public Health England protection team. The guidance should be consulted to ensure this is all fully understood and followed by staff members and parents/carers.

Manage confirmed cases of COVID-19:

Schools must take swift action when they become aware that someone who has attended has tested positive for COVID-19. They should contact the local health protection team. This includes, implementing their advice, specific procedures and containing any outbreak as directed.

Premises Management

In conjunction with this risk assessment and guidance Judicium Education have previously provided a detailed risk assessment template for 'Managing Premises Functions' during this time and a six-part series of guidance documents (in the form of newsletters) titled 'Managing School Premises during COVID-19 outbreak'. The school's management and H&S Lead have been sent this guidance and have access to all Judicium templates. The premises team should refer to this information in order to ensure the school buildings are suitably managed at this time.

It is important that, prior to re-opening for the autumn term, all the usual pre-term building checks are undertaken to make the school safe.

Face coverings

In **primary schools** and education settings teaching year 6 and below, there is **no change to the existing position**. It is not mandatory for staff and visitors to wear face coverings. In situations where social distancing between adults in settings is not possible (for example when moving around in corridors and communal areas), settings have the **discretion to recommend the use of face coverings** for adults on site, for both staff and visitors.

Some individuals are exempt from wearing face coverings and we expect adults and pupils to be sensitive to those needs.

Access to face coverings

Schools should adhere to the following:

1. Where face coverings become damp they should be replaced
2. Where pupils or staff do not have means to provide a mask, the school will maintain a supply to assist
3. The school will ensure that no-one is excluded from an educational setting for not having a face covering

Where local restrictions apply

To conform to WHO new advice, schools and colleges should take additional measures in locations where transmission of the virus is high. These areas are defined as areas of national government intervention.

Schools and colleges will need to communicate quickly and clearly to occupants in areas where new local restrictions have been imposed.

Please note:

The template addresses the general site and school use risk assessment. The government guidance asks that all school risk assessments are reviewed that may be affected. This will include but is not exclusive to: Use and supervision of playgrounds, General classrooms, Common areas, Cleaning, Practical subjects (Science, PE, Art, DT, Performing Arts etc.).

There is specific guidance from organisations such as the Association for Physical Education that should be consulted. Each Head of Department (specialists in their area) must review these risk assessments, make suitable amendments and show how they are adhering to guidance. This is specific to your school and department.

Consulting and sharing Coronavirus (COVID-19) risk assessment

Schools should consult with the health and safety representative selected by a recognised trade union or, if there isn't one, a representative chosen by staff. Schools and staff should always come together to resolve issues.

Schools should share the results of their risk assessment with their workforce. If possible, they should consider publishing it on their website to provide transparency of approach to parents, carers and pupils (The HSE would expect all employers with over 50 staff to do so).

The return of pupils and families and staff from abroad Red List countries:

Where pupils (and their parents or guardians or family member) meet the UK entry requirements and have travelled from or through a 'red list' country in the previous 10 days, they must quarantine in a managed quarantine hotel for 10 days. Pupils travelling to England from other, non-red, list countries will need to quarantine at their place of residence or other suitable place and purchase a home testing package, with coronavirus (COVID-19) tests to be taken on days 2 and 8 after arrival to support the UK's genomic sequencing programme.

For further information regarding this assessment, please refer to your assigned Judicium Education Health & Safety consultant.

Health and Safety Risk Assessment – Re-opening Schools – COVID-19

Site		Location	
Subject of Assessment	Re-opening schools to full use from 8 th March 2021.		
Assessed by	Anna Morris/Jo Ferns	Date	8 th March 2021
Assessed by		Review date	Ongoing – latest revision date detailed in the footer
Details of workplace/activity	Pupils and employees partaking in school activities within the school premises, including general classroom activities, dining, break-times, playgrounds, pick-up and drop off (where applicable), First aid and external visitors to the school.		Persons Affected (Who may be harmed)
			Pupils, Employees, Contractors and Visitors.

Hazards and Risks	Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions √/X (If √ See Actions)
1. Spread/contraction of COVID-19 due to interaction with a person who has symptoms of the disease, a person who may be asymptomatic or lack of information on how infection risks are controlled in the school. Stress or anxiety caused due to lack of support,	<ul style="list-style-type: none"> The school has informed parents, pupils, carers, employees and visitors not to enter the school if they are displaying any symptoms of coronavirus (following the COVID-19 guidance for households with possible coronavirus infection); Parents receive guidance on school times for their child and protocols set out for attending the school i.e. should 	Medium	/

		each session.		
5.	<p>Spread/contraction of COVID-19 due to lack of social distancing measures during the school day including:</p> <ul style="list-style-type: none"> • Dining; • Moving around the school; • Break-time / playgrounds. 	<ul style="list-style-type: none"> • Separate lunch breaks are designated for each year group bubble. Pupils will stay in these groups during lunch; • Lunch area cleaned before and after each group's lunch (not just at the end of break). Only one pupil will use a clean lunch space before it is cleaned again. <p>Moving around the school:</p> <ul style="list-style-type: none"> • Movement to different areas within the school is reduced as much as possible; • External doors are used to move pupils from one area to another. Effectively creating external corridors in the open air; • Where possible, all spaces are well ventilated using natural ventilation (opening windows) or ventilation units; • Additional furniture is not permitted in the school corridor; • Corridors are sterile environments and kept as clear as possible; • Corridors that cannot provide 2m separation (although passing in the corridor is deemed low risk) are designated one way where possible; • Corridor floors are demarcated to show direction and safe distance signage; • Times are allocated for each year group bubble to reduce the need to pass one another in open spaces; 	Medium	/

Hazards and Risks	Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions √/X (If √ See Actions)
	<ul style="list-style-type: none"> • Where possible pupils will move with their group only and will not mix with other groups; • Staff will generally manage pupil movement but keep a suitable social distance from pupils and other staff; • Behaviour policy states consequences for children deliberately ignoring above measures; • Adults will wear face coverings when moving around the school and in communal areas. Face visors are not an alternative for face masks in communal areas unless an individual is exempt on medical grounds. <p>Break-times / playgrounds:</p> <ul style="list-style-type: none"> • Separate times or areas (at a safe distance using government guidance) are issued for each separate year group. • Pupils are only permitted to complete suitable activities with their year group bubble; • Due to potential issues with reduced numbers of staff and trained first aiders, playground activities are strictly controlled with structured play. Rough play is prevented; • Daily inspection and enhanced cleaning programs are in place for external areas and equipment; • Outside play equipment and toys will be used in rotation; • Equipment is cleaned before use by each designated year group; • Outside play equipment and toys will be used in rotation; • This is designed to enable successful and effective cleaning of all outside toys / play equipment. 		

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions √/X (If √ See Actions)
6.	Spread/contraction of COVID-19 due to lack of hand-washing and general poor hygiene.	<ul style="list-style-type: none"> • Staff and parents are encouraged to use education resources such as e-bug and PHE schools resources; • Hand washing stations are positioned at each pupil, staff and visitor entrance to the school; • All those entering the school are required to wash/sanitise their hands; • Hand washing stations are located within each classroom; • Hand washing sinks are located within each toilet provision; • Signage is located adjacent to each wash station or sink reminding occupants to wash their hands and how to do it effectively; • Pupils and staff have been shown how to wash hands properly; • Help is available for children and young people who have trouble cleaning their hands independently; • Hand washing is recommended frequently and required at the following times: <ul style="list-style-type: none"> ➢ Entry and exit from the school; ➢ After using the toilet; ➢ When returning from breaks ➢ On entry to the dining hall; ➢ Before and after eating; ➢ On entry and exit from each classroom. • Unnecessary touching of the face is discouraged. • Teachers will remind pupils to use tissues and bin them 	Medium	/

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions √/X (If √ See Actions)
		<p>once used. If tissues are not readily available exactly when needed occupants are reminded to cough or sneeze into their arm, 'catch it, bin it, kill it';</p> <ul style="list-style-type: none"> • Any tissues must be disposed in the COVID-19 swing bins provided; • Toilets and wash stations have single-use paper towel or hand-dryers for drying hands. 		
7.	Spread/contraction of COVID-19 due to lack of adequate cleaning measures.	<ul style="list-style-type: none"> • The school has implemented additional cleaning regimes. This includes the following: <ul style="list-style-type: none"> ➤ Frequent cleaning of classrooms, toilets, common areas and dining halls; ➤ Frequent cleaning of all touched surfaces, such as door handles, handrails, table tops, play equipment and toys. • Classroom furniture and soft furnishings have been reduced in order to improve the ability to effectively clean rooms; • Classrooms will be cleaned at lunch breaks and after school; • Toilets will be cleaned in the morning, after break, after lunch and at the end of the day; • Common areas will be cleaned once a day; • Equipment used by the pupils and staff will be suitably cleaned at the end of each day or before it is used by another person; • If an area is suspected to have been contaminated by coronavirus (a positive case is detected for an occupant of 	Medium	/

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions √/X (If √ See Actions)
		<p>a classroom), the room will be subject to a hard surface clean with disposable cleaning materials and the associated waste will be double bagged to be stored securely for 72hours before disposal as per the guidance set on COVID-19: cleaning un non-healthcare settings.</p> <ul style="list-style-type: none"> • The Caretaker will perform a disinfectant fogging of an area that has been suspected to have been contaminated. 		
8.	Spread/contraction of COVID-19 due to lack of social distancing measures. In particular school employees.	<ul style="list-style-type: none"> • Employees are required to conform with social distancing requirements at all times; • Meetings will take place via Zoom or Microsoft teams; • PPA should be taken at home and year group teams should meet via zoom or Microsoft Teams; • School offices are either reduced in occupation and desks are positioned in order to provide adequate separation or staff are moved to other areas to reduce contact; • The Staff room has been assessed, a maximum number of staff occupancy has been placed on the door – 8 at any one time. Only 2 people to be sat at the round table and square table and sat face to face at all times. • Staff are encouraged to bring a packed lunch, keeping a suitable distance from other occupants and using sensible judgement about timing to allow more staff to have time to eat – this may include moving to other areas to complete breaks; • Pupils will practice social distancing from staff appropriate to their age and as described in additional points of this assessment; • Employees will be provided with and wear PPE when 	Medium	/

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions √/X (If √ See Actions)
		<p>required in accordance with Government guidance.</p> <ul style="list-style-type: none"> Where a pupil or member of staff has had Close Contact with an individual who has had a positive test, they should self-isolate for 10 days. If they develop symptoms they should book a test and follow relevant guidance depending on the result of the test. The definition of Close Contact is: Anyone who has had any of the following types of contact with someone who has tested positive for coronavirus (COVID-19) with a PCR test: <ol style="list-style-type: none"> face-to-face contact including being coughed on or having a face-to-face conversation within 1 metre been within 1 metre for 1 minute or longer without face-to-face contact sexual contacts been within 2 metres of someone for more than 15 minutes (either as a one-off contact, or added up together over one day) travelled in the same vehicle or a plane 		
9.	<p>Spread/contraction of COVID-19 due to insufficient First aid measures or poor arrangements when handling student's medication. This includes:</p> <ul style="list-style-type: none"> Dealing with general First aid; Lack of trained first aiders; Dealing with a suspected case of Covid-19; 	<ul style="list-style-type: none"> A specific First aid needs assessment has been completed – see other 'First Aid Needs assessment – COVID-19'; The FA assessment takes into account numbers and ages of pupils, number and training of employees; This information forms the decision on what activities and groups can safely be managed within the school; This includes sufficient first aiders for the school to the number of pupils with a particular focus on early years 	Medium	/

Hazards and Risks	Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions √/X (If √ See Actions)
<ul style="list-style-type: none"> Inappropriate handling/removal of clinical waste Aerosol Generating Procedures (AGP) 	<p>provision;</p> <ul style="list-style-type: none"> Qualified first aiders are in place at an appropriate ratio for paediatric first aiders for Early Years provision (Note there is a three-month additional time allowed for requalification due to current restrictions); The school has a specific room/area dedicated for suspected cases of COVID-19; Where an individual exhibits symptoms during the school day, the individual will be escorted to the marked Isolation Room/Area to isolate them from the main population until additional medical assistance can be gained. This may be 111 support, an ambulance or until they leave the site to self-isolate; Staff escorting the individual will be provided with and must wear disposable mask, visor, gloves and apron; The classroom area or workspace the individual leaves will be subject to a hard surface clean with appropriate disinfectant products and all waste double bagged and stored securely for 72 hours before disposal. The Caretaker will carry out a disinfectant fogging of the area. Staff or contractors carrying out the area clean should be provided with a minimum of disposable gloves, aprons, mop heads or paper towels. Where visible contamination, e.g. saliva droplets, is present face protection in the form of mask, goggles or face shield will be provided. All building users advised re monitoring their own health, reporting of symptoms and self-isolating 		

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions √/X (If √ See Actions)
		<ul style="list-style-type: none"> • Where available, the school will provide an individual displaying symptoms with a home testing kit – where the individual is a pupil, the kit will be provided to their parent or carer • First aiders required to assist this person will wear full PPE including, apron, gloves, mask and visor; • First aiders have completed appropriate training for ‘donning and doffing’ PPE; • First aiders have completed appropriate training for ‘donning and doffing’ PPE – PHE guidance: https://www.gov.uk/government/publications/covid-19-personal-protective-equipment-use-for-non-aerosol-generating-procedures • PPE is disposed of in accordance with NHS COVID-19 waste management guidance; https://www.gov.uk/government/publications/covid-19-decontamination-in-non-healthcare-settings/covid-19-decontamination-in-non-healthcare-settings • The first aid room is cleaned frequently and after each use (when first aid care has been provided). • Staff dispensing medication to pupils should minimise contact and their wash hands before and after dispensing the medication. If required, gloves will be worn by staff when giving medication • Where appropriate, pupils should take the medication out of the blister packs/bottles then place the unused ones back in the cupboard, etc. 		

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions √/X (If √ See Actions)
		<p>Waste disposal measures Waste control measure from possible cases of COVID-19 and cleaning of areas where possible cases have been identified (including disposable cloths and tissues) are as follows:</p> <ul style="list-style-type: none"> • Put in a plastic rubbish bag and tied when full; • The plastic bag is placed in a second bin bag and tied; • It is put in a suitable and secure place and marked for storage until the individual's test results are known; • Waste is stored safely and kept away from children; • Waste is not put in communal waste areas until negative test results are known or the waste has been stored for at least 72 hours; • If the individual tests negative, this can be put in with the normal waste; • If the individual tests positive, then waste is stored for at least 72 hours and then put in with the normal waste; • If storage for at least 72 hours is not appropriate, a collection as a Category B infectious waste is arranged by either local waste collection authority if they currently collect your waste or otherwise by a specialist clinical waste contractor. They will supply you with orange clinical waste bags for waste bags can be sent for appropriate treatment. 		
10.	<p>Spread/contraction of COVID-19 due to lack of social distancing measures for external visitors to the school, including:</p> <ul style="list-style-type: none"> • Parents; 	<ul style="list-style-type: none"> • Visitors are restricted to those who are absolutely necessary (E.g. peripatetic teachers). • Parents are not permitted to enter the school unless by prior appointment; 	Low	/

Hazards and Risks	Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions √/X (If √ See Actions)
<ul style="list-style-type: none"> • Maintenance contractors; • External Teachers; • Inspectors; • Delivery personnel • People hiring the premises. 	<ul style="list-style-type: none"> • Parents have been informed to call the school office or email if they have any questions or concerns; • If parents need to drop off items for pupils, they should be left at the school’s main entrance for staff to collect; • For those who have to enter the school reception, screens are in place to reduce the risk to school staff; • Markings have been added to the floor asking visitors to stay back at least 2m from the reception desk; • Touch screen sign in equipment in Reception to be wiped after use • Visitors will only be permitted into the school if they have an appointment; • A record of all visitors, including contractors, to site will be kept and maintained; • Visitors will only be permitted at their designated time and will be asked to wait outside of the school building until their school contact is available; • The school contact is required to attend reception in good time to meet their visitor; • Meetings with visitors will be via video conference or phone where possible; • If not possible social distancing measures will be adhered to at all times; • Face to face meetings in small rooms or within 2m are not permitted; • Meetings which involve children such as speech and language assessments can only take place once the parents/carers of the children have signed an agreement; 		

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions √/X (If √ See Actions)
		<ul style="list-style-type: none"> • Premises’ contractors will be managed in accordance with a separate premises maintenance risk assessment written specifically for this time; • Deliveries will be accepted at designated quiet times only; • Delivered items will be left outside of the school building for staff to collect; • The number of ITT trainees, supply teachers, peripatetic teachers and volunteers has been reduced where possible; they all receive an induction to inform them of the school’s risk assessment and controls to prevent infection risks in the school, when pertinent, relevant training is also provided. • Peripatetic teachers will complete a risk assessment for the lessons they deliver, the school will review these to ensure distancing requirements are maintained where appropriate and efforts are made to reduce the number of groups taught and locations worked in. 		
11.	Spread/contraction of COVID-19 due to lack of social distancing measures. This includes unsuitable use of toilets.	<ul style="list-style-type: none"> • One in one out management of toilets is in place; • Toilet use protocols are managed by Teachers if located adjacent to classrooms; • Pupil use of toilets outside of early years’ is managed by staff and communicated to pupils; • Toilet in use signs are in use; • Toilets are cleaned throughout the day; • Pupils and staff are encouraged to close toilet lids where applicable before flushing. • Two members of staff can use the ladies’ toilet situated in 	Medium	/

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions √/X (If √ See Actions)
		the entrance hall at any one time.		
12.	Lack of staffing / insufficient staff ratios	<ul style="list-style-type: none"> • Adequate ratio of staff to children will be maintained and is assessed on a daily basis, based on potential staff illness or self-isolation; • Children are suitably supervised at all times; 	Low	/
13.	Lack of suitable premises management	<ul style="list-style-type: none"> • The school adheres to the government guidance on managing buildings that are partially open; • Premises staff levels are maintained and suitable for the use of the building; • Appropriate cleaning and premises staffing levels are in place; • Waste removal and enhanced cleaning programs are in place for the potential coronavirus contaminated waste; • Contingency in place for sudden premises staff absence; • Good ventilation can help reduce the risk of spreading coronavirus, where possible windows doors (unless fire doors) will be opened to improve general ventilation through fresh air, when this is not possible, the Premises Manager will look at improving mechanical systems. 	Low	/
14.	Hazardous substances management, unsuitable COSHH management and unsafe use of chemicals leading to ill-health, environmental contamination or fire.	<ul style="list-style-type: none"> • Suitable storage and management of flammable hand sanitizer is in place; • All chemicals used for the cleaning of school buildings and equipment is COSHH assessed and managed appropriately; • Material safety data sheets are held for all chemicals and 	Low	/

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions √/X (If √ See Actions)
		<p>readily available to all staff;</p> <ul style="list-style-type: none"> • All cleaning chemicals are stored safely and securely in accordance with requirements; • Appropriate PPE is available for all cleaning including suitable PPE for cleaning of potential coronavirus contaminated rooms or equipment. 		
15.	Fire and evacuation procedures being inadequate at this time due to lack of trained fire wardens or occupants being spread around the building without suitable procedures in place.	<ul style="list-style-type: none"> • Evacuation plans including the following have been reviewed: <ul style="list-style-type: none"> ➤ Safe assembly points for occupants following social distancing requirements; ➤ Safe exit via the nearest available final exit; ➤ Ensuring there are enough trained fire wardens on-site with the ability to sweep all used areas of the school, ➤ Use of the school has been reduced to enable safe sweeping and evacuation. • All other fire system testing and maintenance has continued as normal. 	Low	/
16.	Transmission of Covid-19 via food preparation, handling, storage, contact surfaces or packaging.	<ul style="list-style-type: none"> • The school adheres to guidelines and procedures provided by TWS procurement as we are part of the TWS schools catering contract with Chartwells. 	Low	/
17.	Spread/contraction of COVID-19 during an educational visit.	<ul style="list-style-type: none"> • In line with Government advice, overnight and overseas educational visits will not be carried out during national lock down periods. • A risk assessment – in line with the school’s policy will be carried out for non-overnight domestic educational visits. 	Low	/

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions √/X (If √ See Actions)
		For term 4 there will be no off site educational visits unless with prior agreement from the Headteacher.		
18.	Spread/contraction of Covid-19 due not acting appropriately when a case is suspected or confirmed.	<ul style="list-style-type: none"> • If anyone becomes unwell in school with a new, continuous cough or a high temperature they are sent home/their parents or carer are contacted to collect them and they are advised to follow COVID-19: guidance for households with possible coronavirus infection • The following must be recorded under the COVID category on CPOMS: <ul style="list-style-type: none"> ○ Symptoms shown ○ Procedures & timings – what happened and when leading up to the child’s collection including isolation, PPE & communications ○ Contacts – those in direct contact who have been face to face with the child for more than 2 minutes, including those not normally with the child ○ Procedures – how the risk assessment was followed • A member of SLT will ensure all suspected cases are followed up & received testing, liaising with the family about isolation & the child’s return to school. An action will be created underneath the original incident on CPOMS • Parents/Carers are informed that a responsible adult should be on standby in order to collect their child from school if they become unwell during the school day. The name of the person who will collect the child needs to be 	Medium	/

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions √/X (If √ See Actions)
		<p>provided and recorded for safeguarding</p> <ul style="list-style-type: none"> The school has identified the Local Health Protection Team (HPT) so they can be contacted immediately in the case of a case, the HPT details are available to the SLT The school keeps informed of Government and Department for Education guidance and updates To avoid attendance to the school, remote education plans are in place for pupils or groups that need to self-isolate A contingency plan is in place for a local outbreak, and if the school is asked to close temporarily by HPT or local authority to help control transmission. The plan may involve a return to remaining open only for vulnerable children and the children of critical workers only, and providing remote education for all other pupils. 		
19.	Spread/contraction of COVID-19 due to lack of social distancing measures when transporting a pupil in a member of staff's car	<ul style="list-style-type: none"> This should only take place when all other options have been explored regarding safeguarding/attendance with parental permission where possible Adult should always wear a face mask due to the confined space Windows in the vehicle should be open Adults and child/ren to wash hands before and after Child/ren must sit in the rear of car 	Medium	/
20.	Spread/contraction of COVID-19 during an out-of-hours activities, and wraparound childcare.	<ul style="list-style-type: none"> Out-of-school activities may only continue if their primary purpose is providing registered childcare, or where offering other childcare activities, where this necessary to enable parents to work or search for work or to undertake training 	Medium	/

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions √/X (If √ See Actions)
		<p>or education.</p> <ul style="list-style-type: none"> • Wrap around provisions are only provided where the provision is being offered as part of the school's educational activities (including catch-up provision). Where the provision is as part of their child's efforts to obtain a regulated qualification or meet the entry requirements of an education institution the use of the provision is reasonably necessary to support them to work, seek work, undertake education or training, attend a medical appointment or address a medical needs. • All such activities follow the COVID-19 management procedures set out above for all school activities. 		
21	Spread/contraction of COVID-19 during performing events	<ul style="list-style-type: none"> • Performances with an audience will not go ahead. In these cases, live streaming and recording performances (subject to the usual safeguarding considerations and parental permission) will be made available 		

Please note:

All controls are subject to government guidance being reviewed due to changes to the 'R' rate. This could be amended on a daily basis. Government and DfE guidance MUST be regularly reviewed. The risk assessment must be reviewed if there is a significant change.
